It was a pleasure to have Peter as my GSI, he not only increased my understanding of the course, but also made class enjoyable.
Peter was great as a GSI. He always made sure the class was interested and kept a light-hearted attitude to ease a lot of the stress a course of this difficulty can cause. His explanations were always clear and he was never against taking any questions.
The instruction was great and supplemented the lecture material.
Peter was always well prepared for class and went through the problems thoroughly. He even made sure to send us emails after class if he misspoke or got a problem wrong. He was always willing to go the extra mile to make sure we understood.
Peter Choi was an excellent GSI. He explained material clearly and went above and beyond to ensure that we enjoyed discussion section and understood the nuances of what we were supposed to be learning.
Peter Choi was a fantastic discussion instructor. He created a great classroom community where students felt comfortable asking questions and contributing to discussion. His explanations were very helpful in understanding class content.
I thought Peter was a very kind GSI who explained the material very clearly. I think I could have benefitted more if we had to do some of the problems on our own first, or at least attempt to, but I also appreciated discussion as a way of making up for the mathematical guidance that lecture lacked.
Peter was awesome! I learned so much from him, and he made this material from the class so much easier to understand. He went above and beyond in answering questions, often following up via email to make sure we knew what was going on. Peter really had a great way of handling the classroom too. He made class both fun and informative, which is why I went to every discussion section. Peter is an excellent teacher.

Lectures were clear and informative. Discussion sections were also very helpful, and Peter was a great GSI that would explain all questions well. His questions of the week were also fun class bonding.
a1
Peter was a great GSI who answered student questions respectfully
always a really great discussion section . definitely enhanced my understanding of the material
Always willing to stick with a line of questioning until the student feels satisfied.
Peter is by far one of the best GSI's I have ever had. He takes the time to explain material, and always checks in on his students so that no one is falling behind. He is also a great guy and seeks out the best for everyone.
Peter is an amazing GSI (one of the best for this course). He was very helpful and brought some humor to the class. Keep it up!
Incredibly ran section
