Comments
Peter Choi did an excellent job clearly explaining concepts at a reasonable pace. Peter always left ample time for student questions and the worksheets that Peter and Thomas (the other GSI) wrote for discussion sections were extremely helpful resources for reviewing the content from lecture and preparing for exams. This was a great class and although it was cut short, Thomas did a great job filling in for the last few weeks.
Peter has been one of my favorite GSIs that I've had so far in college. He explained the material clearly and students felt comfortable asking questions in class. He clearly understood the material and taught it in a way that was clear to the students and he watched our reactions to see how much we understood. Overall a very approachable GSI when it came to questions, going to office hours, and understood students struggles in the course/with the material and made an effort to help.

Peter is the best GSI I have ever had! He could honestly be a professor because his explanations are clear and concise, and he is dedicated to us understanding the material. He also made an effort to socialize with us in the first couple minutes of class, which made it more fun to come to section.
good
